

Short Curriculum Vitae (January, 2015)

Ricardo Machado Trigo

Date and place of birth: 4th of March 1967, Lisbon, Portugal.

Home address: Rua João de Freitas Branco, 27, 2 D, 1500-714 LISBOA

Telephone: +351 217162613 (home) +351 918920138 (mobile). **Email:** rmtrigo@fc.ul.pt

1. Current Occupation

- a) Group leader of the Climate variability and Climate Change Group at Instituto Dom Luiz (IDL), University of Lisbon.
- b) Assistant Professor at the Faculty of Sciences, University of Lisbon.

2. Education

- 1996-2000: Ph.D. Climatic Research Unit, University of East Anglia, UK.
- 1993-1996: M.Sc. in Meteorology, Dept. of Physics, Faculty of Sciences, University of Lisbon.
- 1987-1992: First degree in Geophysical Sciences, Dept. of Physics, Faculty of Sciences, University of Lisbon.

3. Awards and Prizes

3.1 International Journal of Climatology prize (2008) awarded by the Royal Meteorological Society (UK) and endowed by John Wiley publishers. Citation can be seen at the Royal Meteorological Society site: [Journal of Climatology prize](#)

3.2 International Meteorological Prize Eduard Fontserè (2013) awarded by the Catalan Association of Meteorology (2013) for participating in the paper "Trends and extremes of drought indices throughout the 20th century in the Mediterranean" published in the journal Natural Hazards and Earth Sciences.

4. Main areas of research

My research activity has been focused in climate variability and climate change topics. In recent years I've been also involved in several trans-disciplinary studies related with climate impacts, extreme phenomena and natural hazards. The main topics of research in recent years are the following:

- 1) The study of recent changes in the climate of Iberia and southern Europe, namely of surface climatic variables, such as maximum and minimum temperature, precipitation amounts (monthly averages and daily extremes). Evaluate how these changes are associated with changes in the atmospheric circulation at the large and synoptic scales.
- 2) Construct climate change scenarios for the Mediterranean region based on direct output of Global circulation Models but also using different downscaling methodologies.
- 3) Further develop the use of large teleconnection patterns (e.g. the North Atlantic Oscillation, the Eastern Atlantic pattern, the Western Mediterranean Oscillation) to characterize changes of the Mediterranean and southern European climates.
- 4) Development of robust tools to diagnostic the atmospheric circulation at various spatial and temporal scales, including: circulation weather types (daily), cut-off low systems (COLs) and storm-tracking (several days), blocking events (up to 3 weeks).
- 5) Development of statistical models and predictability studies at the monthly-seasonal range in the Atlantic-European region.
- 6) Evaluation of different types of weather driven natural hazards with particular emphasis to heatwaves, floods, droughts, landslides and large volcanic eruptions.
- 7) Assessment of the impact of solar storms and variability on the Earth's magnetic field and climate.

5. Employment history

A) Research

2007- 2013: Senior Researcher at Laboratório Associado IDL.

2002- 2007: Consultant of ICAT (Institute for Applied Science and Technology).

2000-2001: Research Associate at Geophysical Centre (CGE) of the University of Évora, Portugal.

1996-1999: Research Associate at the Climatic Research Unit, Univ.of East Anglia, UK.

1993-1996: Research Assistant at the University of Lisbon.

B) Projects with funding

- Project **ERA-CLIM2** European Re-Analysis of global CLIMate observations (FP7), €310k, **2014-2016**. Participant researcher.
- Project **ERA-CLIM** European Re-Analysis of global CLIMate observations (FP7), €210k, **2011-2013**. Participant researcher.
- Project **FUME** – Forest fires under climate, social and economic changes in Europe, the Mediterranean and other fire-affected areas of the world (FP7), €181k, **2010-2013**. Coordinator of Portuguese partner participation.
- Project **ENAC** (Evolution of North Atlantic Climate; the role of Blocking and Storm-tracks in the Past, Present and Future climate of Southern Europe) Funding: FCT (€135k). **2010-2012**. Principal Investigator
- Project **PALEONAO** – *Evolución de la NAO durante los últimos 15000 años en la Península Ibérica y en Azores a partir del estudio de registros lacustres y datos climáticos instrumentales.* Funding: MCyT (€180k). **2011-2013**. Participant researcher
- Project **FLAIR** (Fire – Land – Atmosphere Inter-Relationships: understanding the processes to predict wildfire regimes in Portugal. Funding: FCT (€106k). **2010-2012**. Participant researcher
- Project **MEDIATEC** (Climate change over the Western Mediterranean and Atlantic Islands: a dendroclimatic and genetic survey of the genus Juniperus). Funding: FCT (€35k). **2010-2012**. Participant researcher
- Project **DISASTER** (GIS database on hydro-geomorphologic disasters in Portugal: a tool for environmental management and emergency Planning). Funding: FCT (€20k). **2010-2012** Participant researcher
- Project **CALIBRE**: Rapid climate changes in the Iberian Peninsula based on proxy Calibration, long term instrumental series and high resolution analyses of terrestrial and marine Records. Funding: MCyT (€550k). **2008-2010**. Participant researcher
- Project **CIRCE** – Climate Change and Impact Research: the Mediterranean Environment, Funding: European Union (FP6), €110k, **2007-2011**. Coordinator of Portuguese partner participation.
- Project **MedCLIVAR** - Mediterranean Climate Variability and Predictability. Member of the Steering Committee. Funding from European Science Foundation, **2006-2010**. Variable amount of money per year. Member of the Steering Committee.
- Project **COST733** (Harmonisation and Applications of Weather Types Classifications for European Regions), Funding: European Union, **2008-2010**. Variable amount of money per year. Member of the Steering Committee.
- Project **PREDATOR** – Seasonal Predictability and Downscaling over the Atlantic European Region (POCI/CTE-ATM/ 62475/2003). Funding: FCT, **2005-2008**, €15k Participant researcher
- Project **IMPACTE** – Impact in health of extreme events in Portugal: Past, Present and Future (Nº1568), Funding: Gulbenkian Foundation, **2005-2009**, €74k Participant researcher
- Project **VAST** – Variability of Atlantic Storms and their Impact on Land Climate (POCTI/CTA/46573/2002), Funding: FCT, **2005-2008**, €55k Participant researcher
- Project **CARBBERIAN** – Terrestrial Vegetation Carbon Trends in the Iberian Peninsula (PDCTE/CTA/49985/2003), Funding: FCT, **2004-2007**, €35k Participant researcher
- Project **SIGN** – Signatures of Environmental Change in the Observations of the Geophysical Institutes (POCTI/CTA/47803/2002), Funding: FCT, **2004-2007**, €80k Participant researcher

- Project **CLIMAAT-II** – Climate and Meteorology of Atlantic archipelagos (Azores, Madeira, and Canary Islands). Funding: INTERREG III B. **2004-2005**, €106k Participant researcher
- Contract with National Electric Grid (**REN**) and main Portuguese Electrical Supply Company (**EDP**) for seasonal river flow forecast, **2004-2006**, €180k Principal Investigator
- Contract with National Electric Grid (**REN**) for daily river flow forecast fro Mondego, **2002-2003**, €130k Principal Investigator
- **Portuguese-Spanish** integrated action on “Impact of the North Atlantic Oscillation in river flow in Iberia”, **2003-2004**, Funding: CRUP, 2400€. Participants: Universidade de Lisboa, Universidad de Granada. Principal Investigator
- **Portuguese-Spanish** integrated action on “Characterization and modelling of heatwaves in Iberia”, **2005-2006**, Funding: CRUP, 2200€. Participants: Universidade de Lisboa, Universidad Complutense. Principal Investigator
- **Portuguese-England** integrated action (Windsor Treaty) on “Risk and Ecoregion implications of wildfire statistics in Portugal”, **2006-2007**, CRUP, 2200€. Participants: Kings College of London, Universidade de Lisboa, Universidade Técnica de Lisboa. Participant researcher
- **Portuguese-Spanish** integrated action on “Identification of moisture sources affecting the Iberian Peninsula”. Participants: Universidade de Lisboa, Universidad de Vigo. **2008-2009**, Funding: CRUP, 4000€ Participant researcher
- **Portuguese-Spanish** integrated action on “Diagnosis of the Northern Hemisphere jet stream: a new perspective from tropopause maps”. Participants: Universidade de Lisboa, Universidad de Pablo-Olavide. **2009-2011**, Funding: CRUP, 3000€ Participant researcher

C) Teaching.

2013 - : Lecturer at the Faculty of Sciences, University of Lisbon (Lisbon).

2007 - 2013: Invited Lecturer of Climate Change Sciences (Master degree) at the Faculty of Sciences, University of Lisbon (Lisbon).

2001 - 2013: Invited Lecturer of Physics, Engineering Department, Lusófona University (Lisbon).

1994 - 1996: Assistant Lecturer of Mathematics and Physics at Instituto Superior de Educação e Ciências (Lisbon).

1994 - 2000: Assistant Lecturer of Physics at the Engineering Department, Lusófona University (Lisbon).
